REPLY TO
ATTN OF: HW-093

MEMORANDUM

SUBJECT: Boyd Coffee

FROM: David Bennett
NPL Coordinator

David Bennett

TO: Deborah Flood
Superfund Response & Investigations Section

A file review of the above subject site was conducted to develop a preliminary HRS score. Based upon the Preliminary Assessment, a score of zero (0) was calculated. This is due to the fact that all hazardous wastes are properly contained and recycled. I recommend no further federal remedial action at this time.
